QUESTOR
(and The Catacombs of Garr)

You are **QUESTOR** – and only you have The Power. The power and the will to deliver your Kingdom from the evil Garr. For Garr would destroy all that stands between himself and domination. But you are strong with The Power. You can use The Power and enter where fear defeats the weak of spirit.

In the service of your master you must enter The Catacombs of Garr and face the dangers within. For it is your destiny that you have been chosen to locate the daughter of The Nawab and free her from the terrors of the darkness. Use your Power wisely for your mind is a weapon – *fight when you must – hide when you can* – but find The Key and Garr will be destroyed.

A fully animated Arcade Adventure, **QUESTOR** will test your mind as well as your reflexes. You are placed in a 'world' which you must explore and map if you are to stand any chance of success. Locations are reproduced in stunning full colour graphics and new dangers are waiting around every corner. *Expect the unexpected!*

For loading and playing instructions see insert.
